

Certificate of Analysis

Product:	Tetrahop Gold
Batchnummer:	ETG1340
Type of product:	Tetra-Iso Extract
Production Date:	31 st May 2013
Best if used by :	31 st May 2015

Storage:

Tetrahop Gold should be stored at 15 – 25 °C (59-77 °F)

Characteristic	Specification	Value	Method
Appearance:	Yellow to amber liquid	Passed	Visual
Identification (HPLC):	Meets test	Passed	HPLC
Assay: As tetrahydro-iso- α - acids by HPLC (w/w)	8,5% - 9,5%	9,06	HPLC method using current Tetra, ICS
pH:	8,5 – 11,0	10,64	pH meter
Heavy Metals*:	Less than 20 ppm	Passed	ICP**
Lead*:	Less than 5 ppm	Passed	ICP**

* Note: Tetrahop Gold is regularly tested for heavy metals, lead to ensure compliance with the specification. Typical results are available on request.

** Inductively Coupled Plasma
