

NON-GMO certificate

Products: Fermentis Brewing yeasts

We, Quality Department of Fermentis certify:

The yeast strains produced by the LESAFFRE company for the production of the Fermentis Brewing yeasts do not contain any Genetically Modified Organisms (GMO), as defined by 2001/18/CE European directive dated 12 March 2001 (which stand in for the 90/220/CEE European Law).

For your information, the substrate used for the production of the Fermentis Brewing yeasts do not contain any Genetically Modified Organisms (GMO), as defined by 2001/18/CE European directive dated 12 March 2001.

As a consequence, we guarantee that the Fermentis Brewing yeasts are not subject to any further conditions of labelling regarding the directives 1829/2003 and 1830/2003.
