

July 1, 2026

Dear Partner,

We would like to inform you of a minor update to the Dolium keg spear. The color of the spear seal will change from **black** to **transparent**, as shown below:

Please note that this change has **no impact** on the quality, performance, or functionality of the Dolium keg. The changeover will occur over the next 3 months for all spear types.

The new transparent seal has been introduced to ensure that the Dolium spear complies with beverage contact regulations and ingredient legislation worldwide.

In addition, this change reflects our ongoing commitment to sustainability. Along with initiatives such as reducing the weight of Dolium kegs and increasing the use of recycled materials, the new seal is another step toward minimizing Dolium's environmental impact.

If you have any questions or require further information, please do not hesitate to contact us.

Kind regards,

Marnix Kuijpers
CEO
