<i>Crisp Pre-Prohibition Lager see website for details</i>	

Flaked Torrefied Maize consists of maize grits that have been micronized at high temperatures which bursts open the starches and thus gelatinises the maize. It lightens wort and can add a unique corn flake-like sweetness to beers.

Maize can also be used by distillers to create bourbon style whisky without needing to pre-cook the maize. Crisp’s Flaked Torrefied Maize is GM-free.
