MALT SPECIFICATION (EBC)

Mild Ale Malt

EBC Analysis:	<u>Minimum</u>	<u>Target</u>	<u>Maximum</u>
Extract dry basis %	80	> 81	-
Colour °EBC	7.5	-	9.0
Moisture %	3.0	3.5	4.0
Total Protein %dm	9.0	-	10.3
Kolbach Index %	40	-	45
Friability %	88	> 90	100
Homogeneity %	96	> 97	100

Packaging:	25kg woven polypropylene, laminated, food-grade sack. Product name pre-printed on bag. Packing & BBE date, other details on bag label.
Appearance:	Clean whole grains of malted barley.
Application:	Main ingredient for milds and stouts.
Characteristics:	Well modified producing consistent extract within the standard ale colour range, producing sweet and flavourful worts, slightly darker than other ale malts.
Ingredients:	100% barley grown in the UK at Assured Farms.
Production method:	Steeped, germinated then kilned to Mild Ale specification. Transferred to storage silo. Dressed (cleaned) & weighed into sacks.
Country of Origin:	UK. All grain used is 100% UK Assured grain.
Food Safety:	Our malts do not exceed legal or voluntary limits for various contaminants. Due-diligence sampling is carried out at or above UK industry (MAGB) agreed frequencies. Testing is for NDMA, mycotoxins, pesticide residues, heavy metals. Refer to the HACCP scheme for more detail.
Allergen Information:	Barley, as with all cereals, contains gluten.
Best before date:	2 years from delivery date when stored in dry, cool location. There is no "use by" or "expiry" date.
Other Requirements:	All products must be supplied clean, and meet any specification provided by the Customer. See also relevant safety data sheet.
